Since the Governor of the State of Illinois stated about a year ago. "I see no alternative but to fill in the Industrial Canal to keep the Asian Big Head Carp out of the Great Lakes."

Why are you being so stupid and arrogant to not impliment his advice? Is it because you are paid to be stupid or what is your problem? I think that you are some of the dumbest people on Earth who do not know anything but going to work to collect your government paycheck and keep anything positive from being done at all. You all redefine the word

"Arrogant" and since you are unwilling to listen, I would fire you all if I had the power. Fill in the damned ditch, stupid. Stop the carp from entering the Great Lakes. Try to make a difference and stand up for us fishermen, and not President Obama and his wealthy friends. Please listen to the Governor of the State of Illinois and fill in the damned ditch.

Gary Kent Keyes
